THE ABOVE INFORMATION IS BASED ON MANUFACTURERS

CRITERIA AND EXPERIENCE FROM EXTENSIVE USE OF EQUIPMENT.

SIGNATURE Dean Bulbeck DATED: 30/06/21 (Review in 1 year)

L=Likelihood H=Harm H X L = Risk Score with
1 = Lowest Risk and 25 = Highest

Harm and likelihood are worked out using numbers 1- 5. These are then multiplied to give the risk score
. We recommend that clients undertake their own risk assessment to suit individual needs.

We strive to have no risk score over 10 and anything over 20 would result in DB Entertainment not running the kit

DB Entertainment Risk Assessment
Equipment: Crazy Golf

Specific ride Covid-19 secure addition measures to ensure a 2m distance is maintained and risk mitigated

- The operation of one entrance in and a separate exist out and the limit of participants on the course at any one time
